

# Secure Your Spot for This Important Ag-Specific Training

## “Taking Control of Your Financials”

UNCOMMON LEARNING

### Gain Financial Clarity and Confidence

For producers, financial uncertainty can be incredibly stressful. That's why the ag consulting experts at UnCommon Farms created this course specifically for agricultural producers—to help you gain clarity, confidence, and control over your finances.

Led by experienced ag financial consultants, this hands-on workshop uses your operation's actual financial data—including five years of tax returns and six years of balance sheets—to build a personalized historical farm financial performance report. This report becomes your core reference throughout the training for a truly customized experience.

With expert support, you'll identify challenges, apply practical improvements, and create a strategic financial roadmap tailored to your operation. Take the first step toward long-term financial success.

### What's Included

- Two-day intensive financial training
- Lunch for all participants
- Dinner for all participants on the first night
